I have no doubt you are being slammed by email today. Apologies if you already received this but I didn't want to take the chance that you have not. Please see attached.

Jeremy,

I am hoping that the delay in the decision on the ACP and request by DEQ for additional information will buy the people working to support a transition to 100% renewables some time to support Governor Cooper through our work. A foundation of justification from the voices of our municipal leaders.

There is a board strategy meeting tomorrow in Winston Salem of the NC Climate Solutions Coalition, of which I am a board member. My message is going to be, "Hurry it up and get these communities on board with the 100% Renewables Resolution!"

Please call me if there is anything I can do to assist you or the governor in this work.

Thank you!
